# Original Medicare

Coverages available

- ✓ Part A – hospital insurance
- ✓ Part B – medical insurance

Gaps exist in coverage

# Medicare Part A Coverage

Medicare Part A is the hospital insurance portion of your plan. It pays benefits for:

- ✓ Inpatient hospital care
- ✓ Hospice care
- ✓ Some skilled nursing care
- ✓ Home health care

# Medicare Part A Coverage

For hospital stays in 2023, your cost for each benefit period are:

Day 1-60	\$1,600 Part A deductible
Days 61-90	\$400 per day co-payment
Days 91-150	\$800 per day Lifetime Reserve Days co-payment. When your hospital stay exceeds 90 days during the benefit period, a feature referred to as “Lifetime Reserve Days” takes effect. When you use a reserve day, Medicare permanently subtracts it from your 60-day lifetime limit.
Days 151 and after	All cost after your Lifetime Reserve Days run out. But, if you don't have the full 60 reserve days left, you pay all Part A expenses before the 151 <sup>st</sup> day of the benefit period.

# Medicare Part A Coverage

For skilled nursing care in 2023, your costs for each benefit period are:

Days 1-20	Nothing
Days 21-100	Up to a \$200 per day co-payment
Days 101 and after	All cost

# Skilled Nursing Facility Care Coverage

Medicare pays benefits for skilled nursing facility care only if:

- ✓ Your doctor prescribes the skilled nursing care.
- ✓ You need skilled nursing care every day, not just 5 or 6 days a week.
- ✓ You were in the hospital for the last 3 consecutive days before entering the skilled nursing facility.

# Skilled Nursing Facility Care Coverage

- ✓ Medicare covers only short-term skilled nursing home care, with no payments after 100 days.
- ✓ It does not cover ‘custodial’ or ‘intermediate’ care, the most common kinds of care.
- ✓ In total, Medicare pays only about 10% of all long-term care cost. (Source: Department of Health & Human Services)

# Home Health Care Coverage

**Medicare pays benefits for the home health care only if:**

- ✓ You need part-time skilled nursing care, physical therapy or speech therapy
- ✓ You're confined to your home
- ✓ Your doctor prescribes home health care and sets up a care program
- ✓ Your home health agency is Medicare-approved

# Medicare Part B Coverage

**Part B deductible for 2023 is \$226 (2022 \$233)**

Medicare part B is the medical insurance portion of your plan. It pays benefits for:

- ✓ Doctors' services
- ✓ Outpatient hospital services
- ✓ Medical services and supplies

Let's look at what plans are available for you and which plan meets your needs!

This chart shows the benefits included in each of the standard Medicare supplement plans. Every company must make Plan A available. Some plans may not be available in your state. Only applicants **first** eligible for Medicare before 2020 may purchase Plans C, F and High Deductible F.

Note: A ✓ means 100% of the benefit is paid.

<sup>1</sup>Plans F and G also have a high deductible option which require first paying a plan deductible \$2,700 before the plan begins to pay. Once the plan deductible is met, the plan pays 100% of covered services for the rest of the calendar year. High deductible plan G does not cover the Medicare part B deductible. However, high deductible plans F and G count your payment of the Medicare Part B deductible toward meeting the plan deductible.

<sup>2</sup>Plans K and L pay 100% of covered services for the rest of the calendar year once you meet the out-of-pocket yearly limit.

<sup>3</sup>Plan N pays 100% of the Part B coinsurance, except for a co-payment of up to \$20 for some office visits and up to a \$50 co-payment for emergency room visits that do not result in an inpatient admission.
